## SWING TRADING SIGNALS

**The Trend is our Friend**

---

This Tool is used to swing trade the biggest wave of a pattern. In order to increase the probability of buying the wave 3 up, or selling the wave 3 down, it's important to swim upstream, follow the Trend and wait for the following:

- a Higher Low followed by a new LONG signal of the TrendTrading Indicator, **BUY**, 2% of assets. **Stop Loss** is set at Low - 0.01 with a max of 4%. The stop loss will be changed to break even when the position is 3% in the money. Furthermore, a **trailing stop** of 4% is set.
  - a Lower High followed by a new SHORT signal of the TrendTrading Indicator, **SELL**, 2% of assets. **Stop Loss** is set at High +0.01 with a max of 4%. The stop loss will be changed to break even when the position is 3% in the money. Furthermore, a **trailing stop** of 4% is set.
- 

The eToro logo, featuring the word 'eToro' in a stylized white font on a green background.
